

Directions for use

MASTIX WATERSOLUBLE

Mastix Watersoluble

Grimas Watersoluble Mastix is a skin glue that can be removed with water.

Watersoluble Mastix is used for gluing Wool Crepe beards and moustaches for children whereby it should absolutely not be used near or above the eyes.

Mastix Watersoluble is intended to be used for the above applications. If you want to use Mastix Watersoluble for other applications (such as gluing other materials onto the skin), we can not guarantee safe use and it is your own responsibility to test the intended use first.

Procedure

With aid of the applicator brush you spread Water-soluble Mastix over the skin area where something is to be glued on.

Note Water-soluble Mastix can lose adhesion due to perspiration.

Absolutely do not use on children near or above the eyes.

Removal

Water-soluble Mastix can be removed simply with lukewarm water.

Safety information

MASTIX WATERSOLUBLE

Mastix Watersoluble

10 ml

100 ml

Packaging:	Colour: transparent (cap with brush) Content: 10 ml Colour: white (cap with brush) Content: 100 ml

Composition

MASTIX WATERSOLUBLE Mastix Watersoluble

INCI	<%
Ethanol	50
VP/VA copolymer	50
Ppg-12-Peg-65 lanolin oil	5

The ingredients that are present in the product in the greatest proportions are listed first.

Ingredients that are present in the product to less than 1%, are listed in random order at the end of the list. Then the pigments and colorants are addressed, even if they are used in large quantities.

< is less than.

Dermatological declaration

MASTIX WATERSOLUBLE Mastix Watersoluble

In the dermatological declaration one can read the following:
The products have been dermatologically tested for 24, 48 and 72 hours on 30 persons with healthy skin. No irritation occurred.

CONCLUSIONS

Under the conditions of this test we found no evidence of primary irritation or allergic hypersensitivity.

None of the thirty patch-tests resulted in positive reactions after 24, 48 and 72 hours.

The investigating specialist for dermatology and allergology considers this test-product safe for use.

Dr.med.Werner Voß

Investigating specialist
for dermatology and allergology

Safety declaration

Has been evaluated at:

The toxicity profile of the ingredients used, taking account of any contaminants present.

Interactions between the various raw materials.

Quantities of weight and volume the consumer is exposed to.

Foreseeable improper use by the consumer-group.
